

## **D.I.S.L. AUTOMATIC – NEVER BACK DOWN LYRICS**

all of my people are you ready? it's time that we stand on ground..  
throw up your fist and hold it' steady..cuz' we are never gonna back down

[verse 1: disl automatic]

with the rhyming i am lethal,i ain't sour but i'm disl  
automatic, emphatically yelling "power to the people"!  
time to wake up and then rise up in a fight against the evil  
every race from every nation, we are all created equal  
white, black or brown,if you like how that sounds  
throw your fist up and then tell 'em you will never back down  
governments around the world taking away our freedom  
they say we got no choice but i choose not to believe 'em  
the people i can lead 'em,they respect me cause they see i'm true  
follow me until you're able to become a leader too  
that's the way we build a people's army full of generals  
the force of unity that we would see would be incredible  
federal laws protecting corporate investments  
they try to trick us into thinking that we are defenseless  
senseless wars like the war on drugs  
the war on terror, they're nothing more than wars on us  
the more i bust these rhymes the more of a threat i am  
got me on a list of terrorists? yeah i bet i am  
but i've never been a coward known to back down  
done playing the background  
time to lay the smack down!

[hook: disl automatic]

we are never,we are never back down  
we are never,ne-never gonna back down  
we are never,we are never back down  
power to the,power to the people how it that sound!

[verse 2: filfy]

we are never gonna back down, never gonna weaken  
together we gone march through the change of the seasons  
the journey ahead is full of angels and demons  
we gone keep it pushing till were facing the legion  
the wars on our freedom so the battle it commences  
gather up the troops it's time to man up the trenches  
plan our defences, and when it comes to crunch time  
catch me screaming who who who from the front line  
i'mma fight for the rights of the people i meet  
that been sh-tted on by the system now they live in the street

i despise the elite, controlling with their lies and deceit  
they pull the wool over your eyes and that's called blinding the sheep  
through their disorder new world orders getting closer and closer  
now our, freedoms and rights are p-ssed from owner to owner  
now that i'm older, i'm ready to stand shoulder to shoulder  
soldier for soldier, fighting till this slaveries over  
see the governments a cause for all the wars and neglect  
so the revolution has started that's just cause and effect  
i will never join the system the system can go to h-ll  
forever power to the people cause the people will prevail

[hook: disl automatic]

we are never,we are never back down  
we are never,ne-never gonna back down  
we are never,we are never back down  
power to the,power to the people how it that sound! 2x
